VEHICLE MODEL HIGHLIGHTS AND SPECIFICATIONS

“Together, we have what it takes to build cars and trucks with the power to change both the way you view the world and the way you move in it. That’s why, at Nissan, we’re certain that Enterprise Fleet Management makes a great partner today and in the future.”

*Bob Topor
Commercial, Leasing, Government and
Alternative Fuel Vehicles Fleet Sales Manager*

2009 Nissan

Cars

NISSAN ALTIMA Building on previous generation Altima's reputation, the 2009 Nissan Altima is evolutionary in design, but revolutionary in its platform. The 2009 Altima comes to market as a sedan or coupe. A hybrid version is available but in limited supply. The Altima offers Nissan's advanced Xtronic CVT™ (Continuously Variable Transmission), a choice of 3.5-liter V6 or powerful 2.5-liter inline 4-cylinder engines, and a long list of technology features – including standard Intelligent Key with push start ignition and available Bluetooth®.

NISSAN MAXIMA The all-new 2009 Maxima delivers the thrill of a sports car with the sophistication of a premium sedan. Maxima offers 290hp from its V6 engine. Match all this with a new Continuously Variable Transmission (CVT) and the result is more power and more efficiency. Bucket-style seats are available in this 4-door sports car. You can unlock the door and start the car all with the touch of a button. Nissan Advanced Air Bag System with dual-stage front supplemental air bags comes standard.

NISSAN SENTRA The 2008 Nissan Sentra features a standard 2.0-liter 4-cylinder engine, standard 6-speed manual transmission or fuel-efficient Nissan Xtronic CVT (Continuously Variable Transmission) and responsive handling. Inside the spacious cabin includes a 60/40 split double-fold rear seat, all-season tires, and Nissan Advanced Air Bag System with dual-stage front supplemental air bags with seat belt sensors. Sentra is also available with a wide range of unexpected amenities, ranging from the luxury of suede or leather-appointed seating to the convenience of Nissan's Intelligent Key keyless entry system.

NISSAN VERSA The 2009 Nissan Versa is the next generation small car. Lots of space, plenty of horsepower, great fuel economy, and surprisingly high-tech amenities. Go up to 400 miles on fill ups.

Stay in the green with up to 33 mpg. Versa even goes 100,000 miles before needing a tune up. Six air bags come standard. The available 60/40 fold down seats make it easy to handle people or cargo or both.

Trucks

NISSAN FRONTIER Frontier comes equipped with a 261hp 4.0 liter V6 engine and up to 6,500 lbs. maximum towing capacity. For 2009 Frontier comes in either King or Crew Cab body configurations with your choice of model types. The Frontier includes a number of features shared with the Nissan Titan, including its rugged suspension design, Utili-track bed channel tie-down system and fully boxed, all-steel frame based on the Titan's F-Alpha platform. Frontier includes a side air bag package, which includes drive and front-passenger side-impact supplemental air bags and roof-mounted curtain side-impact supplemental air bags with rollover sensor.

NISSAN TITAN Titan is full-size power, all truck, and no compromise. The Nissan Titan is available in King Cab and Crew Cab body configurations with a choice of 2WD and 4WD. The 317hp 5.6 liter V8 Endurance engine produces up to 385 lb-ft of torque. Titan has an available maximum capacity towing of up to 9,500 lbs. Titan comes equipped with a fully boxed ladder frame, outstanding off-road capability, standard 4-wheel Anti-lock Braking System (ABS), and independent double-wishbone front suspension. Other available options include the bed-organizing utility of Utili-track Channel System, spray-on bedliner, and extendable tow mirrors.

Minivans, Crossovers & SUVs

NISSAN ARMADA Armada's 5.6-liter, 32-valve Endurance V8 churns out 317hp and 385 lb.-ft of torque. And the Flexible Fuel Vehicle (FFV) option, the Endurance engine strikes the right balance between get up and go. Continuously Variable Valve Timing Control and a high-flow intake maximize every gulp of air for power and gas mileage. The Flexible Fuel Vehicle (FFV) option allows Armada to run on ethanol E85, standard gasoline, or any mixture of the two fuels (not available in all states). Safety is top of mind for the Armada with available side-impact supplemental air bags are built into the front seat, so they move with you. The 4-wheel Anti-lock Braking System (ABS) combines with Electronic Brake force Distribution (EBD) and Brake Assist (BA) to help provide maximum braking power in any situation.

NISSAN PATHFINDER Pathfinder's V8 and V6 are as smooth as they are strong, even at high RPM. A 5-speed automatic transmission is geared to make the most of Pathfinder's muscle. An independent rear suspension offers quick response, plus improves passenger comfort, especially in the 3rd row, by helping absorb bumps. A frame featuring high-tensile-strength steel – 90% stronger and 22% lighter than conventional steel – creates a solid platform. 2- or 4-wheel Limited Slip (ABLS) automatically redirects power to the wheels with the most traction. There is plenty of room with 64 seating configurations. The third row folds flat to open 49 cu. ft. of space, and that's just to start.

2009 Nissan

NISSAN XTERRA Xterra comes with power, roominess and utility. The 2009 Xterra continues to offer excellent off-road performance, 261hp 4.0-liter V6, and 5,000 lbs. of maximum towing capacity. Continuously variable valve timing delivers peak efficiency and on-demand power. The available, easy-to-use Utili-track Cargo Channel System makes stowing a cinch. The 60/40 split rear seats and available fold-flat front-passenger seat accommodate almost any cargo. Xterra's standard Electronic Brake force Distribution (EBD) adjusts braking based on additional cargo or passenger weight so you're always in control.

NISSAN QUEST Flexible, easy-to-configure seating. Innovative technologies. Quest is equipped with a standard 3.5-liter DOHC 24-valve V6 engine. Quest's traction and braking technologies – including available Vehicle Dynamic Control (VDC)¹ and Traction Control System (TCS) – respond just as you'd want them to, instantly. 4-wheel Anti-lock Braking System (ABS) combines with Electronic Brake force Distribution (EBD) and Brake Assist (BA) to help provide maximum braking power in any situation. Quest elevates the driver experience with driver-focused gauges and a center console that puts all the

controls easily in reach. The refined cabin features chrome-trim gauges, knobs with a pleasing click, soft leather seats and surface textures that feel richer to the touch. The 2nd-row seats tilt forward for easy access to the 3rd row, and slide forward and back to maximize leg room. With all seats down, there's room for items up to eight feet long.

NISSAN ROGUE The 2009 Rogue offers crossover versatility to Nissan's lineup in 2009. The available all-wheel drive, smooth gearless transmission, and assertive engine make Rogue a flexible driving option. Rogue's sleek exterior nearly eclipses the surprising roominess inside. Available features include xenon headlights, fog lights, auto-dimming rearview mirror, and power sliding and tilt moonroof with sliding sunshade, just to name a few.

NISSAN MURANO The all-new AWD Murano shows off its sculpted curves and well-crafted interior. The 3.5 liter V6 engine delivers 265hp. Powerful and refined for smooth performance, the Intelligent CVT means virtually gearless shifting. Murano keeps drivers safe with its standard Vehicle Dynamic Control (VDC) two and six standard airbags, including standard roof-mounted curtain airbags. All passengers can enjoy a comfortable ride with the available Dual Zone Auto Temperature Control (ATC) and available front and rear warming seats.
