### VEHICLE MODEL HIGHLIGHTS AND SPECIFICATIONS

“Toyota has partnered with Enterprise Fleet Management to bring you some of the best fleet products and services available in the market.”

*Scott Heyer  
Corporate Manager, Toyota Fleet*

# 2009 Toyota

## Cars

**\*TOYOTA AVALON** The Avalon comes in a variety of trim levels, including the XL, Touring, XLS and Limited. The 2009 Toyota Avalon is an affordable sedan with all the amenities and perks of a luxury car. Solid handling and good passing power combine with an upscale and comfortable interior to make the Avalon a solid choice. The exterior has been updated to give a more muscular look. The Avalon also features 6-speed automatic transmission and improved braking.

**TOYOTA CAMRY** The 2009 Camry is available in Camry, LE, SE, XLE and Hybrid arrays. With an EPA highway rating of 31 mpg, Camry's surprise is a pleasant one. Even better, the Camry Hybrid has an EPA rating of 33 mpg in the city. High Solar Energy-Absorbing (HSEA) glass, washer-linked variable intermittent windshield wipers with mist cycle and heavy-duty electric rear window defogger with timer are standard on all arrays.

**\*TOYOTA CAMRY SOLARA SE** The Solara SE envelops its occupants in its sculpted metal on 16" alloy wheels and tires and an interior gleaming with silver metallic-style trim. Solara's standard side airbags, available front-and-rear side curtain airbags and standard Anti-lock Brake System (ABS) have you covered. Solara Sport Coupe leaves subtlety behind with 17" aluminum alloy wheels and sport-tuned suspension. Or, indulge in the Solara SLE with power moonroof, leather-trimmed seats and a standard Bluetooth®. Solara comes standard with either a 2.4 liter DOHC 16-valve VVT-i 4-cylinder engine with 155hp or a 3.3 liter DOHC 24-valve VVT-i V6 engine with 210hp.

**TOYOTA COROLLA** Enter the all-new 2009 Toyota Corolla with five arrays (Corolla, LE, LXE, S, and XRS). There are two standard fuel-efficient engines: 1.8 liter DOHC 16-valve dual independent VVT-i 4-cylinder 132hp (Corolla, LE, LXE, and S) and 2.4 liter DOHC 16-valve VVT-i 4-cylinder 158hp (XRS). 4-wheel Anti-lock Brake System (ABS) with Electronic Brake-force Distribution (EBD) and Brake Assist are standard. Corolla has standard 16" steel wheels with full wheel cover (S and XLE), standard 15" steel wheels with full wheel cover (Corolla and LE), available 16" wheels (LE, XLE, and S), and standard 17" alloy wheels (XRS).

**\*TOYOTA MATRIX** The all-new Toyota Matrix comes in three trim levels: Matrix, Matrix S, and Matrix XRS. Aerodynamic multi-reflector halogen headlamps with Daytime Running Lights (DRL), color-keyed door handles, side rocker panels and power outside mirrors, 4-way adjustable front seats with fold-flat passenger seat, 60/40 split fold-down rear bench seat, driver's seat vertical height adjuster, auxiliary audio jack, Heavy-duty rear window defogger, oil (or scheduled maintenance) indicator light are standards across all trim levels. With five doors, loads of cargo space, multiple interior configurations and available all wheel drive (AWD), Matrix is whatever you want it to be.

**\*TOYOTA PRIUS** The 2009 4-door Prius Gas/Electric Hybrid is powered by its 1.5L aluminum double overhead cam (DOHC) 16-valve VVT-i 4-cylinder engine with push button start. Prius has a seamless

integration of its gas engine and an emissions-free electric motor to achieve amazing fuel economy with an EPA-estimated combined city/highway 46 miles-per-gallon and Advanced Technology Partial Zero Emission Vehicle (AT-PZEV) rating. The forward thinking technology of the Prius doesn't end here with available features like Bluetooth® wireless technology, Smart Key System and backup camera.

**\*TOYOTA YARIS** The Yaris Liftbacks and Yaris Sedans make up this 2009 lineup. Need a little extra space? More center pockets, cup holders, console trays and map pockets provide enough space to please any pack rat. Liftback's available 60/40 split, reclining, sliding, fold-flat rear seat makes storage a moot point. EPA gas mileage ratings are up to 35 mpg on the highway.

## SUVs, Minivans & Trucks

**\*TOYOTA 4RUNNER** The 2009 4Runner comes in three arrays – SR5, Sport Edition and Limited – and with an available 260hp VVT-i V8, it's a high-tech machine that can roll over unwelcoming territory. Best of all, with its Downhill Assist Control (DAC), Hill Start Assist Control (HAC), and Independent double-wish-bone front suspension with stabilizer bar, a bit of unfamiliar territory shouldn't be a problem at all.

**\*TOYOTA FJ CRUISER** Powering this FJ is a 4.0-liter DOHC 24-valve SFI VVT-i V6 engine with 239hp. FJ is a Low Emission Vehicle (LEV-II). Standard safety features on the FJ include Star Safety System™ - includes Vehicle Stability Control (VSC) + Traction Control (TRAC), 4-wheel Anti-lock Brake System (ABS) with Electronic Brake-force Distribution (EBD), and Brake Assist, driver and front-passenger dual-stage airbags, 3-point Automatic/Emergency Locking Retractor (ALR/ELR) seatbelts in all outboard and second-row center seating positions (driver's belt is ELR only), and side-impact door beams.

**\*TOYOTA HIGHLANDER** The 2009 Highlander is offered in three arrays: Base, Sport and Limited powered by a 3.5-liter double overhead cam (DOHC) 24-valve dual independent VVT-i V6 engine that delivers 270hp. In addition to being large, roomy, and powerful, the Highlander is an Ultra Low Emission Vehicle. The windshield features UV reduction glass and there is privacy glass on rear side, quarter and tailgate windows. Optional features include power rear door with jam protection, multi-stage heated front seats, power tilt/slide moonroof with sunshade, and more.

**\*TOYOTA HIGHLANDER HYBRID** The 2009 Highlander Hybrid is powered by its hybrid engine – 3.3-liter double overhead cam (DOHC), 24-valve VVT-i V6 with 209hp. Combined with a conventionally powered gas engine, the 2009 Highlander Hybrid is highly efficient. Highlander Hybrid is a Super Ultra Low Emission Vehicle. The 4-wheel independent MacPherson strut suspension with front and rear stabilizer bars helps Toyota Highlander's dynamic, car-like ride adapt to a twisty road and is filled with safety innovations.

**\*TOYOTA LAND CRUISER** With its available height control adjustment that raises and lowers the Land Cruiser up to 2.8 inches for greater ground clearance, it should have many more trails to forge. Sure, its available Bluetooth® hands-free technology, DVD entertainment and a sumptuous interior have softened its edges. But its husky VVT-i V8 will remind you of why Land Cruiser is fun to drive.

# 2009 Toyota

**\*TOYOTA RAV4** The 2009 RAV4 has a sleek and stylishly sculpted exterior whether you chose Base, Sport, or Limited. Yet the RAV4 rolls like a true SUV with a powerful 4-cylinder engine or the 269hp V6. This engine boasts impressive EPA ratings: 27 miles per gallon on the highway. But there's a whole lot more that makes the all-new RAV4 so uniquely capable. The RAV4 has more agility and responsiveness. RAV4 comes with Toyota's Star Safety System™, a combination of five safety features that comes standard.

**\*TOYOTA SEQUOIA** The eight-passenger 2009 Toyota Sequoia is up for any challenge. Sequoia has a 6500-lb. towing capacity. Your choice of 2WD or 4WD with an i-FORCE V8 VVT-i engine delivering 273hp. The SR5, Limited, and Platinum all have plenty of safety standards like front energy-absorbing crumple zone, side-impact door beams and Star Safety System™ and plenty of air bags to surround and protect you.
